

Get-Home Planning Kit

Small steps. Practical preparation. Keep this page where you can find it.

PLAN THE JOURNEY

- ☐ Identify safe routes and places to shelter near work or school.
- ☐ Arrange household check-in contacts and backup transport.
- ☐ Pack comfortable shoes, weather layers, water and portable food.
- ☐ Carry needed medicines, first aid supplies, lighting and phone power.

MAKE A SAFE DECISION

- ☐ Keep a paper map and written contacts.
- ☐ Check official instructions before setting off.
- ☐ Avoid floodwater, closed roads and unsafe shortcuts.
- ☐ Review the kit with seasonal and commute changes.

SAFETY NOTE Getting home is not always the safest immediate choice. Shelter where you are when conditions or official instructions require it.
